**Delete amended SI 16.6 and replace with the following:**

*“Weighting: points will be multiplied by the points factor applying to the race. For windward/leeward races the points factor will be 1.0, the Coastal Race the points factor is 1.5, and the Long Inshore Race the points factor is 2.0. A boat that scored BFD, DSQ, DNF, DNE and DGM will receive points equal to one more than the number of boats entered in the series, multiplied by the points factor for that race.”*
